**FORCE INVESTIGATION DIVISION
REPORT OF AN OFFICER-INVOLVED SHOOTING
F055-16**

TO: CHARLIE BECK, CHIEF OF POLICE

SIR:

Synopsis:

On Tuesday, August 16, 2016, a motorcycle officer was patrolling in Southeast Area as part of the Community Safety Operations Center (CSOC) deployment. While in the area of Figueroa Street and Century Boulevard, he observed a vehicle code violation, and intended to initiate a traffic stop for that violation (**Investigators' Note No. 1**).

Before he could do so, the vehicle pulled to the east curb of Figueroa Street, south of Century Boulevard, and the passenger (suspect) exited the vehicle and walked away. Moments later, the suspect produced two handguns and pointed one of them at the officer, which resulted in an Officer-Involved Shooting (OIS) and the suspect's death.

Two loaded firearms were recovered at scene.

INVESTIGATIVE SUMMARY

At approximately 1530 hours, uniformed Police Officer II+2 Evan Urias, Serial No. 38412, assigned Unit 25MQ81, was conducting directed patrol on his police motorcycle in the area of Figueroa Street and Century Boulevard.¹

While traveling south on Figueroa Street south of 101st Street, Officer Urias observed a black Audi, model A4, traveling north. The Audi's front driver and passenger windows were heavily tinted and the vehicle had no front license plate. Officer Urias also observed that the rear license plate was a paper plate.

Note: As a function of CSOC, Officer Urias had been assigned to monitor the immediate area of Manchester Avenue to the north, Imperial Highway to the south, Figueroa Street to the east, and Vermont Avenue to the west for robbery suppression. He had been specifically briefed on the types of vehicles that had been reportedly used during robberies in the area, notably vehicles without license plates and having tinted windows. Street robberies were also reportedly being frequently committed near bus stops in the

¹ Officer Urias, who was assigned to Valley Traffic Division (VTD), was loaned to South Traffic Division (STD) to work CSOC. He had nine years, eight months with the Department, was 33 years of age, 5 feet 9 inches tall, and weighed 185 pounds. Officers Urias was dressed in a clearly marked police utility uniform and was wearing a ballistic vest and a Department motorcycle helmet. He was equipped with a Department-approved handgun, handcuffs, a canister of Oleoresin Capsicum (OC) spray and a TASER attached to his Sam Browne equipment belt. Officer Urias' side-handle baton and Hobble Restraint Device were located on his police motorcycle at the time of the OIS.

area. Officer Urias had also been made aware of a shooting in the area that had occurred the day before but could not recall specific details of the incident.

Officer Urias conducted a U-turn, northbound on Figueroa Street between 102nd and 103rd Street, to conduct a traffic stop for the observed equipment violations. Upon doing so, he noticed the driver's window to be slightly open and the driver appeared to look in his direction. The Audi accelerated and negotiated a right (eastbound) turn on 101st Street, just south of Century Boulevard. As Officer Urias followed onto 101st Street, the Audi had already reached the intersection of Grand Avenue, one block east of Figueroa Street (approximately 600 feet).

Officer Urias arrived at the intersection of 101st Street and Grand Avenue and observed the Audi turn right onto 104th Street. Once on 104th Street, he observed the vehicle negotiate a northbound turn onto Figueroa Street.

Note: Officer Urias briefly activated his forward-facing red light as he reached 101st Street and Grand Avenue, then immediately shut it off due to the distance of separation between the Audi and his location. Although he suspected criminal activity based on his observations of the Audi, Officer Urias decided not to pursue the Audi based solely on the equipment violations and did not reactivate his emergency lights during the remainder of the incident.

Officer Urias negotiated a right turn, north on Figueroa Street, to monitor the Audi's progress. He observed the Audi maneuver from the number one lane to the east curb of Figueroa Street, just south of Century Boulevard, and pull up next to a bus stop. A male, later identified as Kenney Ahmed Watkins, exited the passenger side of the Audi and walked under the awning of the bus stop, then onto the property of a 76 Gas Station located at the southeast corner of Figueroa Street and Century Boulevard.²

Watkins continued eastbound through the gas station property with both hands concealed under the front of his sweatshirt at his waistband. The unidentified driver of the Audi sped away northbound, then east on Century Boulevard and out of Officer Urias' view.

Note: According to Officer Urias, he did not recall the Audi's direction of travel after it sped northbound on Figueroa Street. He recalled that his focus was on Watkins after observing him with his hands in his waistband and because he was dressed in a jacket on a warm day. Video footage captured by a personally-owned camera mounted to a helmet worn by uniformed Motorcycle Police Officer II+2 Jason Thompson, Serial No. 38374, assigned to CSOC, Unit 25MQ94, depicted Officer Urias advising other officers that the Audi fled eastbound on Century Boulevard. Officer Thompson arrived after the OIS occurred. Officers Urias and Thompson were deployed as partners assigned to the same directed patrol area. They remained in the same approximate vicinity and would check on each other as they made individual traffic stops.

² Kenney Ahmed Watkins, 18 years of age, 5 feet, 8 inches tall, 151 pounds.

Officer Urias pulled into the gas station via a driveway at the southwest portion of the property. Based on the evasive actions of the driver of the Audi and his observation of Watkins appearing to be holding something under his sweatshirt, Officer Urias, from approximately 10 feet away, ordered Watkins to stop and to show his hands.

Note: According to Officer Urias, he was riding a loaned Department motorcycle and was not familiar with the operation of that motorcycle's public address system and therefore did not use it when giving commands to Watkins.

Watkins turned his head and looked at Officer Urias over his right shoulder and began to run through the 76 Gas Station in a northeast direction, then onto the south sidewalk of Century Boulevard, where he continued eastbound. As he ran, Watkins continued to hold his hands under his sweatshirt. Based on Officer Urias' experience as a law enforcement officer, the prior information he had received about the type of vehicles being used to commit robberies in the area, and Watkins' behavior, he formed an opinion that Watkins was possibly concealing a gun in his waistband.

Officer Urias followed Watkins on his motorcycle and made the following broadcast at 1531:40 hours: "*25 Mary Queen 81 (25MQ81). I'm going to be in foot pursuit, 415 man with a gun, Century and Figueroa,*" over STD radio frequency. Officer Urias exited the gas station onto Century Boulevard at the northwest driveway of the property.³

Officer Urias rode eastbound on Century Boulevard, in the number 3 lane (curb lane), remaining offset and behind Watkins, intending to stay out of Watkins' line of sight and maintain distance. Again, Officer Urias ordered Watkins to stop and show his hands. Officer Urias was unable to estimate the speed he was traveling, but stated that Watkins was running at full stride.

Note: Officer Urias recalled the incident unfolding at a rapid pace and that he did not have the opportunity to establish a perimeter stating, "I didn't get a -- it was -- I didn't have a chance yet. It was happening quick and I was telling him to stop."⁴

During his interview, Officer Urias was asked if he considered setting up a perimeter rather than continuing to follow Watkins. Officer Urias stated that he was still able to see Watkins, but if Watkins would have moved southbound through the houses along Century Boulevard, he would have stopped and set up a perimeter.

The investigation determined that there was nothing available to provide cover for Officer Urias between himself and the south sidewalk of Century Boulevard.⁵

When Watkins neared [REDACTED] West Century Boulevard, Officer Urias observed him remove his hands from his waistband and begin running at a normal gait with his arms moving back and

³ Though Officer Urias announced he was in foot pursuit, he continued to follow Watkins on his motorcycle.

⁴ Officer Urias' statement: Page 35, Lines 24-25 and Page 36, Line 1.

⁵ The images from Officer Thompson's helmet camera revealed the absence of parked vehicles along the south curb.

forth, from side to side. As Watkins began to slow his pace, Officer Urias observed that he was holding a small, semiautomatic handgun in his left hand and another handgun in his right hand.

At that point, Officer Urias discontinued acceleration by releasing the throttle of his motorcycle, engaged his clutch, and began to slow his forward progress.

Note: According to Officer Urias, his attention was drawn to the stainless steel handgun in Watkins' right hand because of its longer barrel. A stainless steel revolver was later recovered from the scene.

Watkins turned to his left, at the waist, toward Officer Urias, and looked at him. Watkins held the handgun that was in his right hand slightly above waist level, with his right elbow bent, pointing it at Officer Urias. Watkins simultaneously veered southeast into a driveway between two residences located at [REDACTED] and [REDACTED] West Century Boulevard.⁶

At that moment, while his motorcycle was still in motion, Officer Urias unholstered his weapon, believing Watkins was going to shoot him. Holding his pistol in a one-handed grip with his right hand and his right arm extended out from his body, Officer Urias aimed at the center of Watkins' body, at the left side of his back as Watkins turned, with the pistol, in his direction. While seated on his motorcycle, Officer Urias fired two consecutive rounds from an increasing distance of approximately 20 to 30 feet, as Watkins continued running, striking him once on the left side of his back. Watkins fell to the driveway, dropping the two handguns on the ground.

As Officer Urias slowed, the momentum of his motorcycle carried him slightly west of the driveway. He laid his motorcycle onto its left side in the southern-most lane of traffic and redeployed west of the mouth of the driveway to cover Watkins from a vantage point out of Watkins' line of sight.

At 1532:00 hours, Officer Urias broadcast, "25MQ81, I'm going to be Century, east of Figueroa, shots fired, officer needs help." Approximately 40 seconds later, he requested the response of a Los Angeles Fire Department (LAFD) Rescue Ambulance (RA) for a male with a gunshot wound.

Note: According to Officer Urias, he had requested an RA for a suspect who had sustained two gunshot wounds. A review of STD radio frequency determined that Officer Urias indicated the suspect had only one gunshot wound. According to Officer Thompson and Southeast Area uniformed Police Officers III+1 Roberto Yanez, Serial No. 30020, assigned Unit 18SL35, and Manuel Sanchez, Serial No. 32705, assigned Unit 18HL53, they also made requests for an RA upon their respective arrivals.

According to Witness [REDACTED] [REDACTED] he was traveling eastbound in his minivan on Century Boulevard. As he passed the intersection at Figueroa Street, he observed Watkins running from the 76 Gas Station at the southeast corner of the intersection. [REDACTED] slowed his vehicle and

⁶ The distance from the 76 Gas Station driveway to [REDACTED] West Century Boulevard was approximately 200 feet.

observed Watkins holding a large handgun in his right hand and a smaller handgun in his left hand as Watkins continued eastbound on the south sidewalk of Century Boulevard.

Note: [REDACTED] believed that both handguns were semiautomatics.

[REDACTED] then observed Officer Urias pull along the right side of his van, between himself and Watkins. He observed Watkins turn to his left and look over his left shoulder in [REDACTED] direction. The officer raised his right arm, at which time [REDACTED] heard two consecutive gunshots.

Note: According to [REDACTED] Watkins was running with his arms moving in a circular motion and his guns were pointed east when the OIS occurred. [REDACTED] did not hear any verbal exchange between Officer Urias and Watkins.

[REDACTED] then observed the officer lay his motorcycle on the ground and move west of the driveway while pointing his weapon at Watkins. He recalled observing Watkins laying in the driveway with his head pointing south and the two handguns on the ground, approximately three feet to the east.

According to Witness [REDACTED] [REDACTED] he was [REDACTED] across from [REDACTED] West Century Boulevard, when he heard a voice yell, "Get Down!" and "Stop moving!" He began to walk [REDACTED] when he heard two consecutive gunshots. [REDACTED] observed Watkins fall to the ground.

Note: According to [REDACTED] Watkins' right side was exposed to Officer Urias. He did not see Officer Urias until after hearing the gunshots. He did not see anything in Watkins' hands.

[REDACTED] observed Officer Urias standing approximately eight feet from Watkins, holding his pistol toward the ground in Watkins' direction, and remaining there until additional officers arrived. He did not observe handcuffs being placed on Watkins (**Investigators' Note No. 2**).

At approximately 1533 hours, Officer Thompson arrived at scene followed by Southeast Area uniformed Police Officer III+1 Manuel Sanchez, Serial No. 32705, assigned Unit 18HL53, Officer Yanez, uniformed Police Officers III+1 Ricardo Cepeda, Serial No. 38784, and Jesus Ruiz, Serial No. 37756, assigned Unit 18H32, and Police Officers III+1 Erick Ortiz, Serial No. 37257, and Andy Salcido, Serial No. 38208, assigned Unit 18H43.⁷

⁷ Officers Sanchez, Cepeda, Ruiz, Ortiz, and Salcido were assigned to the Southeast Area Housing Authority of the City of Los Angeles (HACLA) Community Safety Partnership Unit. Officer Yanez was assigned as a Senior Lead Officer at Southeast Area. The officers unholstered their pistols, knowing that shots had been fired and having observed handguns on the ground next to the suspect. Officer Sanchez had deployed his Police Rifle because he was unsure whether there were additional suspects and to adequately cover the suspect in the driveway from a position of cover.

Note: Officer Thompson was the first to arrive. After assessing the scene, he guided Officer Urias to the cover of Officer Yanez' vehicle who, upon his arrival, had pulled his vehicle into the mouth of the driveway, facing south toward Watkins.

At approximately 1534 hours, Southeast Patrol Division uniformed Sergeant I Rex Ingram, Serial No. 38094, assigned Unit 18L40, arrived at scene and identified Officer Urias as having been involved in an OIS.

Note: Sergeant Ingram remained with Officer Urias, toward the rear of Officer Yanez' vehicle, immediately upon identifying him as having been involved in an OIS. He separated Officer Urias from other officers once Watkins was in custody.

As directed by Sergeant Ingram, Officers Sanchez, Cepeda, Ruiz, Ortiz and Salcido, along with Officer Thompson, formed an arrest team and approached Watkins to place him into custody. As the other officers provided cover, Officers Salcido and Cepeda, designated as contact officers, holstered their pistols and placed Watkins in handcuffs with the assistance of Officer Thompson.

When Officer Cepeda observed that Watkins was bleeding from his mouth and nose, he rolled Watkins onto his right side to assist his ability to breathe and held onto him in that position until the arrival of the RA.

Simultaneously, Southeast Patrol Division uniformed Sergeant I John Moreno, Serial No. 36053, Unit 18L20, arrived at scene. Sergeant Ingram communicated to Sergeant Moreno that he would assume monitoring responsibility of Officer Urias. Sergeant Ingram walked Officer Urias to his black and white police vehicle and obtained a Public Safety Statement (PSS) and later transported Officer Urias to Southeast Station.

Sergeant Moreno assumed the role of Incident Commander (IC) and established a crime scene.⁸ He assigned officers to positions and ensured that the handguns in the driveway were monitored.⁹

Los Angeles Fire Department RA 864 Basic Life Support (BLS), staffed by Firefighters (FF) Justino Rodrigues and Jack Bond, arrived at scene at approximately 1536 hours.¹⁰ They were in the area when they were waved down by officers at scene and had not been assigned the call. Upon their initial assessment of Watkins, they identified a single gunshot wound. Per LAFD

⁸ At approximately 1630 hours, Sergeant Moreno relinquished the IC role to Southeast Patrol Division Watch Commander, Lieutenant I Joseph Viguera, Serial No. 31537.

⁹ Los Angeles Police Department (LAPD) Air Support Division (ASD), Air 3, Pilot Police Officer II+6 Manuel Dickerson, Serial No. 30348, and Tactical Flight Officer (TFO) Police Officer II+5 Rennick Brown, Serial No. 35437, responded to the help call and arrived overhead at approximately 1536 hours. Air 3 assisted with the establishment of traffic control. The ASD officers were not interviewed because they arrived after the OIS occurred.

¹⁰ Basic Life Support is a type of care administered by Emergency Medical Technicians (EMT). All sworn LAFD members are EMTs. This is also a designation for a rescue ambulance staffed only by FF / EMTs.

protocol, they requested an Advanced Life Support (ALS) RA response via LAFD dispatch.¹¹ **(Investigators' Note No. 3).**

At approximately 1540 hours, LAFD RA 64, staffed by FF/Paramedics (FF/PM) Javier Rivera and Alfredo Larios, arrived at scene. Upon their assessment, they determined that there were no signs of life and determined Watkins' death at 1548 hours. Watkins was transported to the Los Angeles County Morgue by RA 64 **(Investigators' Note Nos. 4 and 5).**

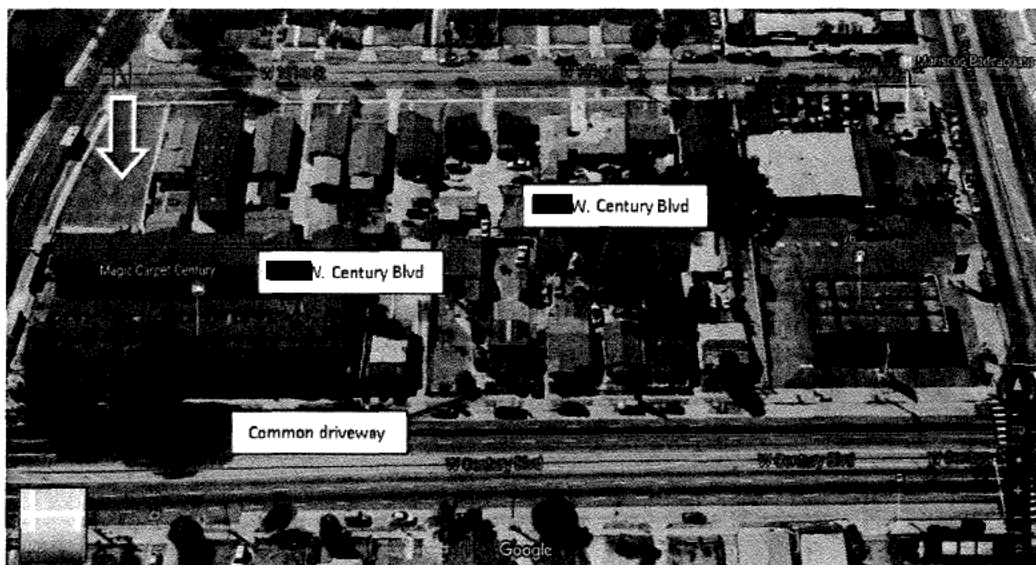

Officers Ruiz and Cepeda spoke with the family that resided at [REDACTED] West Century Boulevard, to ensure their safety by ascertaining whether one of Officer Urias' rounds penetrated their home. They determined that no rounds penetrated the home, and the residents only heard gunshots and did not witness the OIS. The subsequent FID investigation confirmed their findings.

At approximately 1603 hours, Real-Time Analysis and Critical Response (RACR) Division was notified of the Categorical Use of Force.

The first representative from FID, Detective II Christopher Linscomb, Serial No. 32289, arrived at scene at approximately 1615 hours.

Detective Linscomb reviewed all documents and circumstances surrounding the separation, monitoring and admonition to officers not to discuss the incident prior to being interviewed by FID investigators. All protocols were followed and properly documented **(Addenda Nos. 1-3).**

SCENE DESCRIPTION

The OIS occurred in front of the common driveway of [REDACTED] West Century Boulevard in the City of Los Angeles. Century Boulevard was an east/west roadway with three lanes of traffic

¹¹ Advanced Life Support is a type of care administered by paramedics and a designation for a rescue ambulance staffed by paramedics.

in each direction and vehicle parking along the north and south curbs. However, when the OIS occurred, there were no vehicles parked along the south curb of Century Boulevard between Figueroa Street and [REDACTED] West Century Boulevard.¹² The major cross streets were Figueroa Street to the east and Grand Avenue to the west.

The 400 block of West Century Boulevard measured approximately 80 feet in width. The concrete sidewalk on the south side of the street measured approximately five feet in width, and was separated from the street by a grass parkway, approximately four feet in width. The 400 block of West Century Boulevard was lined primarily with residential buildings, including single-family homes, as well as apartment buildings. A 76 Gas Station was located on the southeast corner of the intersection of Century Boulevard and Figueroa Street. The OIS occurred on a clear day during daylight hours.

CANVASS FOR WITNESSES

On August 18, 2016, FID and Southeast Area personnel canvassed the area of the 400 block of West Century Boulevard for witnesses to the OIS. Additional canvasses were conducted by FID personnel on August 31, 2016, and September 8, 2016. Unless otherwise noted, the statements of all witnesses were recorded and transcribed and are contained in this report. Those recorded statements were consistent with the officers' statements. There were six witnesses who only heard shots. The number of gunshots heard by witnesses ranged from one to three shots consecutively. Copies of their statements were documented on FID Heard Only Forms, which were retained in the FID casebook (**Investigators' Note Nos. 6 and 7**).

On August 31, 2016, FID Detective III Anthony Rheault, Serial No. 33961, interviewed Witness [REDACTED]. [REDACTED] said he heard two gunshots, [REDACTED] where he observed an officer standing across the street at the northwest portion of the property at [REDACTED] West Century Boulevard. The officer was pointing his weapon at an individual lying in the driveway and was issuing commands not to move. [REDACTED] also observed a handgun on the ground east of the individual in the driveway. [REDACTED] refused to provide a recorded interview. His statements, which were consistent with Officer Urias' account of the incident, were noted by Detective Rheault, and were stored in the FID casebook.

On September 9, 2016, Detective Linscomb spoke with Witness [REDACTED] by telephone. [REDACTED]. Plans for a formal interview were discussed; however, she was reluctant to meet with investigators. She stated that she was [REDACTED] from the OIS. She heard a single gunshot [REDACTED]. She observed the arrival of officers and their approach toward Watkins in the driveway, and saw no other portion of this incident. [REDACTED]

¹² The aerial photograph on the previous page was obtained from Google Maps and does not accurately depict the curb parking on date of the OIS.

[REDACTED]

SUSPECT INFORMATION

Kenney Ahmed Watkins was a male Black, with black hair and brown eyes. At the time of the incident, he was five feet, eight inches tall, and weighed approximately 150 pounds. He had a date of birth of May 11, 1998. Watkins was identified by Criminal Identification and Information No. [REDACTED]

[REDACTED]

[REDACTED]

Watkins was not documented as a gang member; however, during the interview [REDACTED] identified him as a member of the Rollin 100s Neighborhood Crips criminal street gang, known by the monikers of "Scrappy" and "Blacky." [REDACTED]

[REDACTED] During the investigation, Watkins admitted to being a "100s" gang member known by the moniker of Scrappy. [REDACTED]

[REDACTED]

On August 17, 2016, FID Detective II Paul Inabu, Serial No. 30286, completed an LAPD Investigative Report for ADW on a Police Officer, naming Kenney Watkins as the suspect (**Addenda Nos. 7-8**).

INJURIES

As a result of the OIS, Watkins sustained a single gunshot wound to the left side of his back. Watkins' death was determined at scene by the aforementioned LAFD personnel (**Addendum No. 9**).

No officers were injured during the incident.

EVIDENCE

At approximately 2130 hours, Forensic Science Division (FSD) Firearms Analysis Unit (FAU) Supervising Criminalist Rafael Garcia, Serial No. G9120, and Criminalists II Annette Woiwode, Serial No. N4427, and Kathleen Alvarado, Serial No. N4216, responded and conducted an examination of the OIS scene for ballistic impacts, trajectories and projectiles. Criminalist Woiwode collected two handguns from the driveway between [REDACTED] and [REDACTED] West Century Boulevard; a Smith and Wesson, six shot, .44 Magnum, stainless steel revolver, Model 629-4, Serial No. BSN5733 (**Item 3**), and a .380 Caliber, Bersa semiautomatic, Model Thunder 380 Auto, with an obliterated serial number (**Item 4**). Six live .44 Magnum cartridges were removed

from cylinder of the revolver (**Item 5**). Eight live .380 caliber cartridges were removed from the semiautomatic pistol; one from the chamber and seven from the magazine (**Items 7 and 8**). Criminalist Woiwode also collected two expended, .40 caliber cartridge casings from the street at the south curb in front of [REDACTED] West Century Boulevard (**Items 9 and 10**).

Criminalist Woiwode later utilized swabs to collect possible biological material from both handguns and the cartridges that she removed from the guns (**Items 12 through 16**) (**Addenda Nos. 10-11**).

CORONER'S INVESTIGATION

Coroner's Response:

On August 16, 2016, at approximately 1832 hours, FID Detectives II Kevin Huff, Serial No. 34099, Dante Palacio, Serial No. 32208, and Inabu, responded to the Los Angeles County Morgue and met with Los Angeles County Coroner Investigator Blanchard, who conducted a preliminary investigation under Coroner Case No. 2016-01059. Watkins was positively identified by fingerprint analysis. Detectives Inabu, Huff and Palacio noted one gunshot wound to the left side of Watkins mid-back. There was no scene investigation conducted by the Coroner's Office due to Watkins' transportation directly to the morgue.

Autopsy:

On August 18, 2016, at 1000 hours, Los Angeles County Department of Coroner Deputy Medical Examiner Doctor David Whiteman performed a post-mortem examination of Watkins' remains. Detectives Linscomb, and Zesati, and Los Angeles County District Attorney's Office, Senior Investigator Sonia Florez, were present during the examination. Doctor Whiteman ascribed the cause of death to a single gunshot wound and obtained specimens from Watkins for toxicology analysis (**Addendum No. 12**).

No soot or stippling was identified on the body; therefore, the range of fire was undetermined.

Gunshot Wound No. 1 entered the left middle back and came to rest at the upper chest. The direction of the wound was from left to right, back to front, and slightly upward. A projectile was recovered from the middle of the chest just below the skin surface.

The projectile was recovered by Doctor Whiteman and later booked as evidence by Detective Linscomb (**Item 23**) (**Addendum No. 13**).

Coroner's Test Results:

Toxicology:

On January 10, 2017, a Laboratory Analysis Summary Report was approved by Los Angeles County Department of Coroner Interim Chief Joseph Muto. The analysis results documented that no drugs or alcohol were detected in Watkins' system at the time of his death (**Addendum No. 14**).

Gunshot Residue:

On August 16, 2016, Coroner Investigator Blanchard obtained Gunshot Residue (GSR) samples from Watkins' face and hands. On February 3, 2017, Los Angeles County Department of Coroner Analyst Debra Gibson completed a report indicating that no GSR particles were present on those samples (**Addendum No. 15**).

CLOTHING ANALYSIS

At the time of the OIS, Kenney Watkins was wearing a navy blue jacket, a black T-shirt, a white T-shirt, black pants, a black belt with a silver belt buckle, blue jockey under shorts with a black band, two pairs of white socks, and white Nike tennis shoes.

A clothing analysis report had not been completed as of the writing of this report. Officer Urias' recollection of his position and distance from Watkins at the time of the OIS, however, was consistent with witness statements and the findings of Doctor Whiteman.

WEAPONS

Kenney Watkins was armed with a Smith and Wesson .44 Magnum revolver, Model 629-4, and a Bersa .380 caliber semiautomatic pistol. Both handguns were recovered by FSD Criminalist Woiwode from the driveway between [REDACTED] and [REDACTED] West Century Boulevard. Six live .44 Magnum cartridges were removed from the cylinder of the Smith and Wesson revolver. Seven live .380 caliber cartridges were removed from the Bersa semiautomatic pistol magazine and one .380 caliber cartridge from the chamber (**Addendum No. 16**).

Smith and Wesson 44 Magnum revolver

Bersa .380 caliber semiautomatic

The Department of Justice, Bureau of Alcohol, Tobacco, Firearms and Explosives Tracing Center conducted a firearm trace of the Smith and Wesson 44 Magnum revolver. The trace determined that the firearm was purchased on June 27, 1995, by [REDACTED]. The firearm had been reported stolen during a burglary [REDACTED] on October 18, 2013. The Burglary Report was taken by the Orange County Sheriff's Department (**Addendum No. 17**).

The ownership of the Bersa .380 caliber semiautomatic pistol could not be traced due to its obliterated serial number.

Detective Linscomb contacted Orange County Sheriff's Department, San Clemente Station, Detective Greg Risko, and informed him of the recovery of the Smith and Wesson revolver. Detective Risko stated that there were no suspects identified or arrests made in the case.

Officer Urias was armed with his Department-authorized Glock .40 caliber, Model 22 semiautomatic pistol. According to Officer Urias, the pistol was loaded to capacity with 16 rounds of Department-approved Winchester Ranger, 40 ammunition, at the time of the OIS. Fifteen rounds were in the magazine and one round was in the chamber of the pistol.

On August 16, 2016, FID Detective II Robert Castaneda, Serial No. 26722, conducted a post-incident examination of Officer Urias' pistol. The examination determined that the pistol was loaded with one round in the chamber and 13 rounds in the magazine, which was consistent with Officer Urias firing two rounds. Officer Urias possessed two additional magazines that were loaded to capacity, each with 15 rounds of Department-approved ammunition.

On August 23, 2016, Detective Linscomb verified that Officer Urias' .40 caliber Glock pistol was included in his Firearm Inventory Tracking System record.

On September 29, 2016, FSD FAU Criminalist II Jacob Seror, Serial No. N4571, completed a report documenting the test-firing of Officer Urias' pistol. The pistol's trigger pull was within Department specifications (**Addendum No. 18**).

On January 30, 2017, FSD FAU Firearms Examiner Genaro Arredondo, Serial No. N4417, completed a report documenting the bullet and cartridge case comparison. The two expended cartridge cases collected from the OIS scene were later determined to have been fired from Officer Urias' pistol. The projectile recovered by Doctor Whiteman during the autopsy of Kenny Watkins was found to be consistent with the ammunition and firearm used by Officer Urias.

The Smith and Wesson revolver and Bersa semiautomatic pistol were test fired and found functional. Representative images of the test fired cartridge cases of the Bersa pistol were entered into the National Integrated Ballistic Information Network (NIBIN) database (**Addendum No. 19**).

FIREARMS ANALYSIS

On August 16, 2016, Criminalists Garcia, Woiwode, and Alvarado performed a bullet path analysis of the OIS scene. They searched the exterior walls of [REDACTED] West Century Boulevard, as well as the driveway between the two residences. No bullet impacts were observed.

On August 22, 2016, FSD Forensic Print Specialist III Edgar Berrios, Serial No. N1917, analyzed both of Watkins' handguns, the magazine of the Bersa semiautomatic handgun, and live cartridges recovered from each handgun for latent prints. Two photographs were taken of developed latent prints found on the Smith and Wesson revolver. No latent prints were found on the additional items. Upon examination, FSD Forensic Print Specialist III Mynor Acevedo,

Serial No. N2114, found one of the prints to match the left thumb print of Watkins. The second developed print was not of Automated Fingerprint Index System quality, and no comparison could be made (**Addendum No. 20**).

On August 19, 2016, Criminalist Woiwode collected swabs of possible biological material from areas of each handgun and live cartridges. The swabs were booked as evidence and later analyzed for the presence of deoxyribonucleic acid (DNA).

On December 14, 2016, FSD Criminalist II Martie Donnelly, Serial No. N4673, finalized an FSD Laboratory Report. Criminalist Donnelly concluded there was an insufficient amount of DNA from swabs of the Bersa semiautomatic pistol and cartridges to proceed with DNA analysis. No DNA typing results were obtained from the swab sample taken from the Smith and Wesson revolver (**Addendum No. 21**).

VEHICLES

In an attempt to locate the black Audi and its driver, investigators searched the area of the OIS for video depicting the vehicle, spoke with Senior Lead Officers, Gang Impact Team officers and detectives from Southeast Division, as well as Watkins' mother. The Audi and its driver were never identified.

VISUAL DOCUMENTATION

No video footage obtained resulting from this investigation captured the OIS. Footage from various videos depicted the response of additional officers and their efforts in taking Watkins into custody and general crime scene activity. All of the videos were consistent with Officer Urias' account of the incident.

Digital In-Car Video System (DICVS)

Recorded copies of DICVS footage were retrieved from the vehicles of Southeast Units 18SL35 (Officer Yanez), 18HL53 (Officer Sanchez), and 18A17 (Shop No. 81110).

The DICVS footage from 18SL35 depicted officers' movement as they approached Watkins and took him into custody. The additional DICVS footage also depicted general crime scene activity.

Footage from the other units' DICVS captured the ensuing response and crime scene activity.

Digital In-Car Video System footage of 33 units was reviewed, out of which the above-referenced videos were downloaded and stored in the FID casebook. Unless noted, the DICVS footage from responding units was found to be of no additional investigative value.

Body Worn Video (BWV)

Footage from the personally-owned BWV camera mounted on Officer Thompson's helmet was retrieved by Technical Investigation Division (TID), Electronics Unit, with his consent. The video was stored under TID Control No. 695293.

The video depicted Officer Thompson's response to the scene, Watkins lying in the driveway as Officer Urias covered him at gunpoint, Officer Thompson's communications with Officer Urias, as well as Officer Urias identifying himself as being involved in an OIS to Sergeant Ingram upon the supervisor's arrival. The footage also depicted officers as they approached Watkins and handcuffed him with Officer Thompson's assistance. Officer Thompson is also depicted identifying spent cartridge casings on the street and efforts of the officers present to secure the crime scene.

According to Officer Urias, he had recently purchased his own BWV camera, but had never used it. It was contained in the packaging box, inside his motorcycle's rear top box when the OIS occurred. With his consent, FID detectives took custody of Officer Urias' BWV camera and TID confirmed it did not contain any images.

No additional BWV footage was identified.

Social Media

Personnel assigned to FID's Cyber Unit monitored social media sites from the date of the incident until the submission of this administrative report. [REDACTED]

[REDACTED] The footage, recorded from the north side of Century Boulevard, east of the OIS scene, depicted the arrival of officers to the scene and their approach toward Watkins in the driveway. No additional evidence, information or witnesses were identified.

Outside Video

Witness [REDACTED] recorded video footage utilizing his cellular telephone from the north side of Century Boulevard in two separate segments. A 10-second segment depicted Officer Urias standing at the curb, to the west of the driveway between [REDACTED] West Century Boulevard, covering Watkins at gunpoint as Watkins lay in the driveway. Officer Urias' motorcycle can be seen on its side, east of the driveway. The second segment depicted Officer Yanez' vehicle positioned at the mouth of the driveway as officers arrived at scene. Both segments were stored under TID Control No. 648074.

Security camera video was obtained from [REDACTED] [REDACTED] depicted a view of Watkins with his hands at the front of his waistband as he entered the [REDACTED] property on foot. The lower half of Watkins' body can be seen on other cameras, but there is no other view of his waistband. A weapon is not visible. The footage was stored under TID Control No. 680868.

According to Officer Salcido, there were several civilians using their cellular phones to video the scene. He did not identify who they were. Detective personnel from FID were not able to identify additional videos beyond the ones collected and noted in this report.

Photographs

On August 16, 2016, TID Photographer III Ryszard Niscior, Serial No. N3630, photographed the OIS scene and associated evidence. The photographs were stored under TID Control Nos. D0544981 and D0545980.

Prior to the removal of Watkins' body from the scene, Commander Tingirides photographed the immediate area to document Watkins' position in relation to surrounding evidence. The photographs were stored under TID Control No. D313592.

NOTIFICATIONS

At approximately 1600 hours, Real-Time Analysis and Critical Response (RACR) Division was notified of the Categorical Use of Force and the details of the subsequent notifications are included in this report (**Addendum No. 22**).

PERSONNEL AT SCENE

Crime scene logs documenting additional personnel at the location are contained within the FID case file and are available for review.

COMMUNICATIONS

Copies of the Communications Division printouts relative to this incident, Incident No. 160816003511, are on file at FID. Digital recordings of South Traffic, Southeast Division, and 77th Street Base Frequencies, as well as South Bureau Tactical Frequency 1-Channel 37, spanning the time of this incident, are also on file at FID.

The digitally-recorded interviews of the involved and percipient officers and civilian witnesses are stored in the LAPD Training Evaluation and Management System (TEAMS II) database.

JUSTICE SYSTEM INTEGRITY DIVISION

This case met the criteria for presentation to the Justice System Integrity Division and will be presented shortly after completion of this administrative report.

INVESTIGATORS' NOTES

1. The Los Angeles Police Department CSOC was established in March of 2016. The CSOC Command Post (CP) was constructed to operate 20 hours a day, seven days per week. The mission of the CSOC model was to boost uniformed police presence, community outreach, and investigative resources in concentrated areas to reduce violent crime. The CSOC Command Post utilized real-time crime analysis within specific Department geographical areas, including Southeast Area. Crime information was provided to CSOC officers to provide focused crime prevention efforts in and around specific locations within those areas. The CSOC deployed officers from Metropolitan, traffic, and other specialized divisions.
2. During an initial canvass for civilian witnesses in the area, [REDACTED]
[REDACTED] During a subsequent interview of [REDACTED] by Force Investigation Division (FID) Detectives III Timothy Brausam, Serial No. 23833, and Anthony Rheault, Serial No. 33961, [REDACTED] [REDACTED]

██████████ if his neighbors overheard him speaking with police officers, they might retaliate.

3. Firefighters (FF) J. Rodrigues and Bond were returning to their station from an unrelated call. They were stopped at the traffic signal facing eastbound on Century Boulevard, west of Figueroa Street. They observed unknown police activity in front of them, east of Figueroa Street. They observed a police motorcycle lying on the ground east of their position and additional police vehicles responding to the area when they were waved down by an unknown officer. The FFs did not observe the OIS, or Watkins being taken into custody.

According to FF J. Rodrigues, he requested officers to remove Watkins' handcuffs while he was accessing him; however, Watkins remained handcuffed. Rodrigues was advised that Watkins was in custody and continued his assessment. The FID investigation was unable to determine which officer FF Rodrigues was referring to.

4. Los Angeles Fire Department, Light Force 64, Truck 64, staffed by LAFD Captain Michael Taylor, FFs Steven Scheller and Neil Benveniste, and FF/PM Frank Rodriguez, as well as Pump 264, staffed by Engineer Juan Castillo, responded to the scene with RA 64.

Captain Taylor, FFs Bond, Rodrigues, and FF/PMs Larios, Rivera, and Rodriguez were interviewed by FID investigators. Transcripts of those interviews are included in this report. The additional LAFD members had limited or no patient contact, and were therefore not interviewed.

According to FF Rivera, he had overheard someone state that the officer was shot at and had returned fire. He, however, could not remember who had made that statement or in what context it was made. The FID investigation determined that the officer was not shot at.

5. At approximately 1547 hours, Operations-South Bureau Commander Phillip Tingirides, Serial No. 22519, who had arrived at scene, contacted FID Commander Robert López, Serial No. 22131, and requested that Watkins' body be removed from the scene and transported directly to the Los Angeles County Morgue for public safety concerns after observing a hostile crowd forming. At approximately 1548 hours, Commander López contacted Los Angeles County Coroner's Office Assistant Chief Ed Winters, who approved the removal and transportation by LAFD personnel. Commander López conveyed the approval to Commander Tingirides.

Sergeant Moreno directed Southeast Patrol Division uniformed Police Officers II Anthony Hugoboom, Serial No. 41159, and Travis Pellyk, Serial No. 42132, Unit 18X96, to accompany RA 64 to the morgue. They transferred custody of Watkins' body to Los Angeles County Coroner's Office Investigator Kelli Blanchard, who assigned the death Coroner's Case No. 2016-06023. Officers Hugoboom and Pellyk completed FID Statement Forms, that were included in the FID case book and are available for review.

6. On August 16, 2016, Southeast Patrol Officer Sanchez spoke with Witnesses [REDACTED] [REDACTED] Los Angeles Police Department Field Interview cards documenting their contact information and preliminary statements were completed.

[REDACTED] had advised Officer Sanchez that he had observed a male Black running eastbound on the south sidewalk of Century Boulevard from Figueroa Street while holding two handguns. Witness [REDACTED] at the time of the OIS. She stated she observed the male running from the gas station, then heard one gunshot and observed the male fall. Witness [REDACTED] only heard shots.

Officer Sanchez believed the witness contacts were recorded by his DICVS microphone. Force Investigation Division Detectives II Phyliss D'Elia, Serial No. 26795, and Ubaldo Zesati, Serial No. 30078, reviewed Officer Sanchez' DICVS and found that the interviews were not recorded. Although Officer Sanchez' DICVS camera was activated at the time there was no audio recorded during the time span of the interviews. Numerous attempts were made to contact [REDACTED] by telephone and at multiple listed residences, with no success.

7. On August 16, 2016, Southeast Division Police Officer II Jose Carias, Serial No. 37324, assigned to Southeast Gang Detectives, contacted [REDACTED] during a canvass of the area after the OIS. He completed an LAPD Field Interview Card documenting [REDACTED] contact information and preliminary information related to what [REDACTED] had observed. Officer Carias provided [REDACTED] with a business card and advised him he would be contacted at a later time. Officer Carias' conversation with [REDACTED] was recorded. [REDACTED] was subsequently interviewed by FID Detectives D'Elia and Zesati. [REDACTED] statements during that interview were consistent with the account he provided to Officer Carias.

The transcript of the interview by Detectives D'Elia and Zesati was included in this report. The recorded conversation conducted by Officer Carias was stored under TID Control No. 648038.

(THE REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK)

8. At the time of this incident, motorcycle officers assigned to CSOC were allowed to operate under the same tactical standards for normal motorcycle traffic enforcement. During hours of daylight, partnered officers could separate from each other within an enforcement area, while keeping track of each other by monitoring radio broadcasts. Such was the case for Officers Urias and Thompson, as Officer Thompson arrived at the OIS location less than one minute after the help call was broadcast. On August 22, 2016, following the 72-hour Chief's Brief of this case, Assistant Chief Michel Moore, Serial No. 23506, directed South Bureau Commanders Tingirides and Dennis Kato, Serial No. 25363, that in the future, all motorcycle officers assigned to CSOC will not separate from their partner regardless of daylight hours.

INTRADEPARTMENTAL CORRESPONDENCE

June 21, 2017
13.1

TO: Chair, Use of Force Review Board

FROM: Commanding Officer, Force Investigation Division

SUBJECT: SUPPLEMENTAL INFORMATION TO FORCE INVESTIGATION
DIVISION REPORT NO. F055-16

On Tuesday, August 16, 2016, Valley Traffic Division Motorcycle Police Officer II+2 Evan Urias, Serial No. 38412, assigned Unit 25MQ81, was patrolling in Southeast Area as part of the Community Safety Operations Center (CSOC) deployment. The suspect, later identified as Kenny Watkins, exited a vehicle and fled on foot. Watkins produced two handguns and pointed one of them at the officer, which resulted in an Officer-Involved Shooting (OIS) and Watkins' death.

During the subsequent OIS investigative process, the clothing worn by Watkins at the time of the incident was examined by Forensic Science Division (FSD) Criminalist II [REDACTED]. The FSD Laboratory Report documenting Criminalist [REDACTED] conclusions was not finalized at the time of the submission and distribution of the FID Administrative Report prepared for this investigation. The FSD Laboratory Report was finalized on June 20, 2017.

Criminalist [REDACTED] documented in the report that there were defects identified on the clothing consistent with the passage of a bullet. Due to a lack of a gunshot residue pattern, [REDACTED] was unable to determine a muzzle to target distance. The location of the defects was consistent with the placement of Officer Urias, the direction in which he fired his weapon, and the described position of Watkins at the time of the OIS.

The FSD Laboratory Report is included as an attachment to this document.

Should you have any questions or need further information, please contact Detective Christopher Linscomb, at (213) 486-0976.

Laboratory Report

SID-16-013202 / Req. # 0007
Report finalized: June 20, 2017
Page 1 of 4

DR #:	16-18-16277	Name Associated:	Kenney Ahmed Watkins
Requested By:	CASTANEDA #26722, FID	Offense:	OIS
Phone:	(213) 486-0986	Service:	Firearms - Distance Determination
Analysis Requested:	Distance Determination F055-16		

I, the undersigned analyst, as a Criminalist employed by the Los Angeles Police Department, am prepared to testify to the information provided in this report.

Evidence Item(s):

- Item 22 (LIMS #11-1-1): One (1) sweatshirt, hooded, black
- Item 22 (LIMS #11-1-2): One (1) t-shirt, black
- Item 22 (LIMS #11-1-3): One (1) tank top, white
- Item 22 (LIMS #11-1-4): One (1) pair of jeans, black
- Item 22 (LIMS #11-1-5): One (1) belt, black
- Item 22 (LIMS #11-1-6): One (1) pair of underwear, blue
- Item 22 (LIMS #11-1-7): One (1) pair of shoes, white
- Item 22 (LIMS #11-1-8): Four (4) socks, white & gray

Observation(s)

The above listed items were visually examined for the presence of possible bullet defects.

No defects were observed on the item 22 jeans, the item 22 belt, the item 22 underwear, the item 22 shoes or the item 22 socks.

The following defects were observed:

Item 22 (sweatshirt)

- One (1) defect, labeled A, on the left upper back.

Item 22 (t-shirt)

- One (1) defect, labeled B, on the left upper back.

Item 22 (tank top)

- One (1) defect, labeled C, on the left upper back.

The item 22 t-shirt and the item 22 tank top are consistent with being undergarments and therefore no further

analysis was performed on defects B and C.

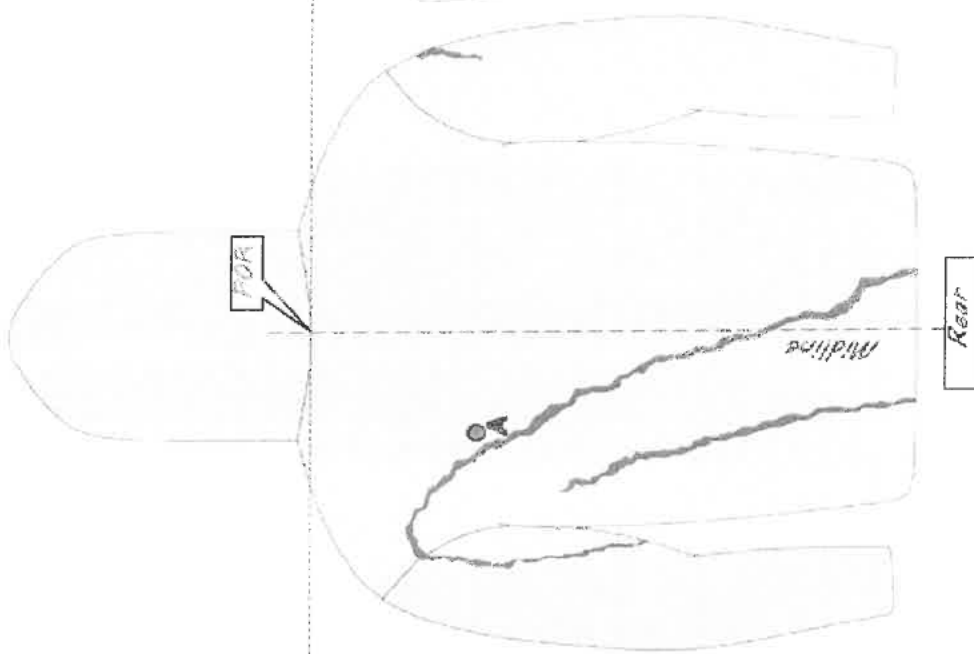

The area around defect A was visually and microscopically examined and chemically processed for the presence of gunshot residues.

Conclusion(s)

Defect A is consistent with the passage of a bullet, however due to the lack of a gunshot residue pattern, a muzzle to target distance could not be determined.

Item #22 Sweatshirt
